Subject: Re: Lal Lal Wind Farm — Administrative Record (Further Correspondence)

Dear Governance,

The Trustee refers to:

- correspondence issued to Council dated 9 April 2026, 15 April 2026, and 22 April 2026 concerning administrative record clarification matters associated with Planning Permit PL-SP/05/0461-2;
- Council's acknowledgement dated 24 April 2026; and
- the Trustee's follow-up correspondence dated 1 May 2026.

The Trustee notes that the above correspondence sought clarification, for record purposes only, concerning matters arising from:

- Council correspondence previously issued in relation to commissioning, operational status, meteorological monitoring infrastructure, and post-construction noise assessment material;
- documentary outcomes arising through Freedom of Information processes; and
- the basis upon which certain administrative positions or assumptions appear to have been formed or relied upon within the available record.

To date, no substantive clarification or further response has been received from Council.

The Trustee records that Council has been afforded multiple opportunities to clarify or supplement the presently disclosed administrative record, including whether:

- a concluded administrative position was formed in relation to the authorisation status of the Elaine meteorological monitoring facility; and
- a concluded administrative position was formed in relation to commissioning timing or related permit-trigger matters, including the documentary basis upon which any such position was recorded or relied upon.

In the absence of further clarification, the Trustee will proceed on the basis of the presently available documentary and

administrative record, including the material disclosed through freedom of information processes and Council's prior correspondence.

For completeness, the Trustee records that this correspondence:

- does not assert breach, wrongdoing, or legal consequence;
- does not seek enforcement action or outcome; and
- is provided solely to ensure that the administrative record accurately reflects the present state of correspondence and non-response.

The Trustee would be assisted by confirmation should Council intend to provide any further substantive response.

Kind regards,

LEWIS TROJAN HORSE PTY LTD
